

Geometric Representation of Profiles

Profile 1

- 10 A>B>C
- 2 A>C>B
- 4 B>A>C
- 1 B>C>A
- 3 C>A>B
- 10 C>B>A

Profile 1

Red is A in first

Blue is A in second

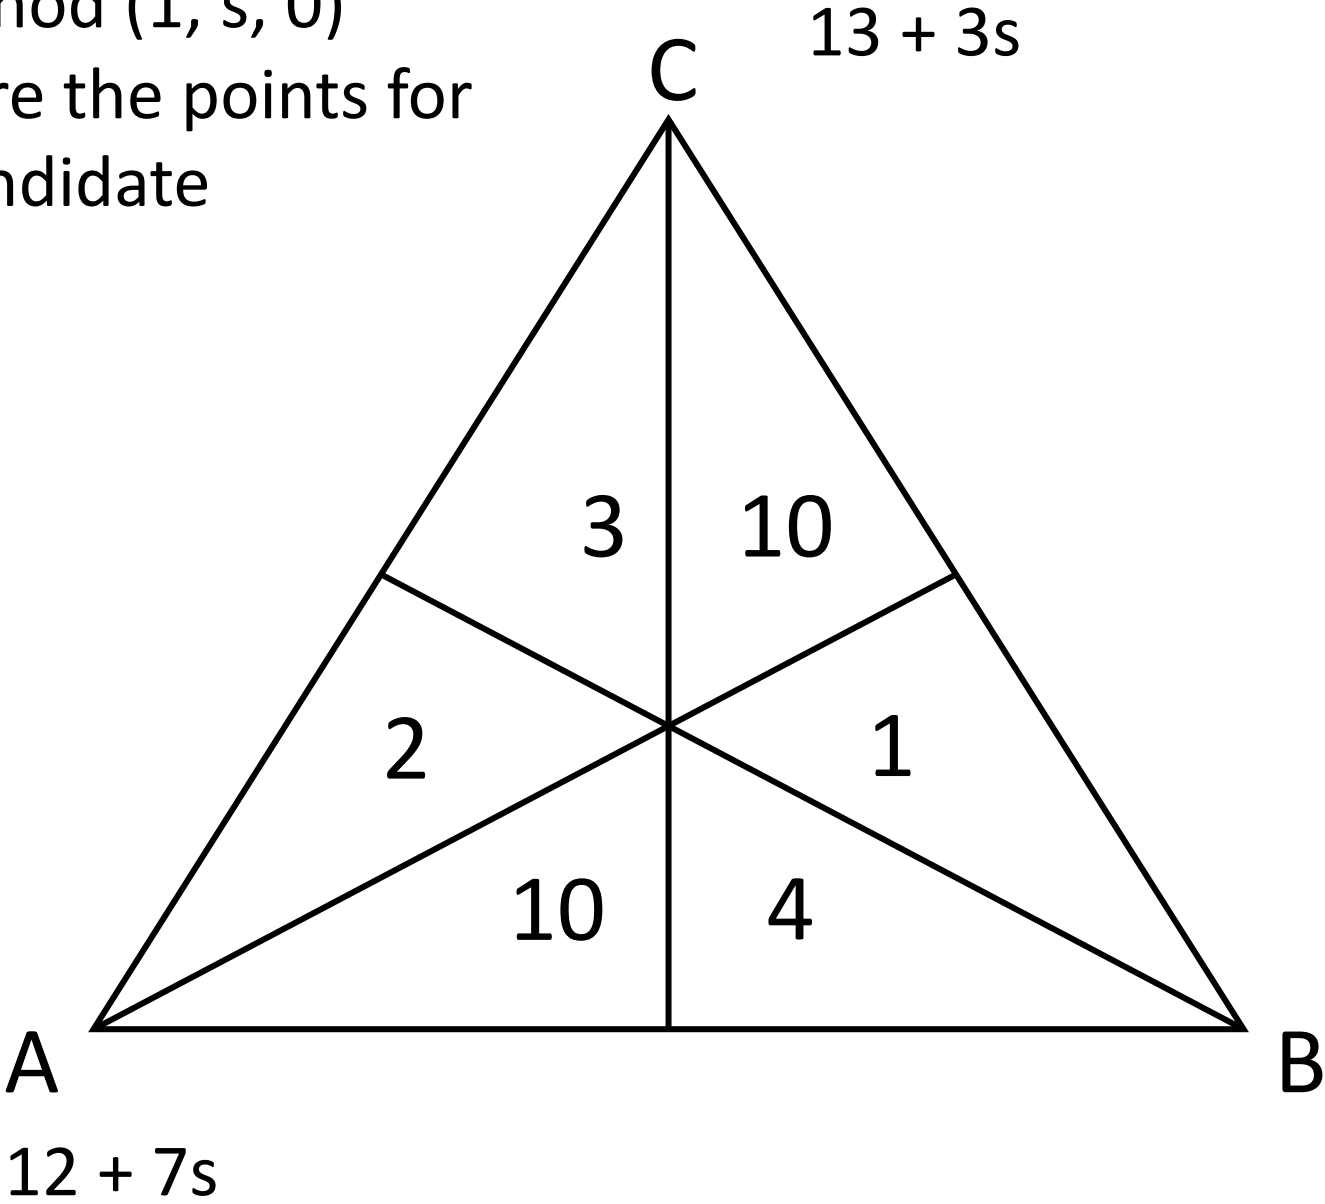

Any positional method for 3 candidates can be represented by $(1, s, 0)$, where $0 \leq s \leq 1$.

Plurality: $s = 0$

Anti-plurality: $s = 1$

Borda Count: $s = \frac{1}{2}$ (so $(1, \frac{1}{2}, 0)$ is equivalent to $(2, 1, 0)$)

For method $(1, s, 0)$
 These are the points for
 each candidate

<u>PI</u>	<u>AP</u>	<u>BC</u>
